

DACX X200 CLASS D 2CH Amplifier

The OSD DAC-X-200 is a versatile amplifier designed to enhance audio quality in various applications. It features a built-in digital-to-analog converter and a powerful 200-watt-per-channel amplifier, capable of driving demanding speakers. It offers multiple input options, including USB, optical digital, and analog, allowing users to connect various audio sources such as computers, TVs, streaming devices, and music players. The DAC-X-200 can also be integrated into whole-house distributed audio systems and commercial setups, providing flexible audio solutions for homes and businesses.

SPECIFICATIONS

- Hi Definition DAC 2X Channel Stereo Amplifier
- Amplifier Class: Class D
- Power Handling:
 - @ 8 ohms: 100Wx2 RMS
 - @ 4 ohms: 225Wx2 RMS
- Bridged Rating (Watts): 450W (Max) @ 8 ohms
- DAC: CT7601+ES9018KM2, Supports 24 Bit/192Khz
- Frequency Response: 20Hz-20kHz
- Impedance: 8ohm and 4ohm Stable
- Inputs: USB, RCA Interrupt / Main / Optical
- Remote Control: Included
- Power Supply: Switchable 120/240V Input Voltage
- A/B speaker switching
- Bass and treble controls
- Priority input switching
- Class 2 compliant USB Audio Input
- 12V trigger input and output
- Auto On/Off function
- Dimensions: 16.7" x 10" x 2" (LxDxH)
- Weight: 7.5 lbs
- Warranty: 2 years
